DETAILED ACTION

1. Claims 40-66 are pending as amended on 12 June 2009, claims 1-39 being cancelled.
2. The text of those sections of Title 35, US Code not included in this action can be found in a prior Office action.

Response to Amendment and Argument

3. Applicant's cancellation of claims 1-39 has rendered the following moot:

The rejection of claims 1, 14, 18, 19, 33 and 34 under 35 USC § 103(a) as being unpatentable over US Patent 6,013,729 (Tsujiimoto hereinafter) in view of International Patent Application Publication WO 96/16110 (Karrer hereinafter) has been withdrawn.
4. Since no prior art was found that anticipates or renders obvious the elected species, the search was extended to include all claimed species.

Oath/Declaration

5. The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:

The oath or declaration filed 26 July 2004 omits the priority claim to application 09/910348 that was made in the oath or declaration filed 08 March 2004.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Adrian Calderone on 17 September 2009.

The application has been amended as follows:

Replace the first paragraph of the specification with the following:

[0001] This application is a continuation-in-part of U.S. Application Serial No. 09/910,348, filed July 23,2001, ~~currently pending~~ now abandoned and incorporated by reference herein in its entirety.

Allowable Subject Matter

6. Claims 40-66 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: Tsujimoto, the closest prior art made of record, teaches a similar composition with the exception of a hindered amine light stabilizer that includes a pendant siloxane chain, and further contains components disallowed by applicants' use of the transitional phrase "consisting essentially of."

Conclusion

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Timothy J. Kugel whose telephone number is 571-272-1460. The examiner can normally be reached on 6:30 AM - 5:00 PM Monday - Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James Seidleck can be reached on 571-272-1078. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

8. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
